LEGEND
△ Triangulation Stations
○ Recoverable Stations of less than third order accuracy
○ *(d)* Described Recoverable Stations
This map, without contours, is a reproduction of the original drawing compiled from air photographs taken January 17 and 26, 1935, and supplemented by other surveys to May, 1937.

This light line around mangrove defines the outer limits of vegetation visible above mean high water. The mean high water line (intersection of the plane of mean high water with the ground) is shown only on fast land and is represented by a heavy solid line.
